

## Centregreat Rail LTD

### Installation of Compound SA4 0XP

The clients Centregreat Rail LTD employed Merthyr Salvage for the installation of their site compound. This also included creating an access to the railway bridge over the river in Hendy Industrial Estate. Merthyr Salvage provided a universal service including:

- **The stripping back of existing earthworks**
- **Laying of Terram membrane**
- **Installation of Type 1 Aggregate**
- **Installation of gabion baskets at the river's edge in order to**

form a platform for scaffolding for repairs to proceed on the railway bridge. All of this was done in a safe and professional manner within our clients time scale. Merthyr Salvage prides itself on a vast industry working knowledge and a customer service that's second to none.

**Duration: 1 Week**  
**August 2016**
